PROFESSIONAL SUMMARY

Software Engineer with 1.5+ years of hands on experience designing, developing, and deploying scalable web and mobile applications. Experienced in MERN Stack, PHP, MySQL, React Native, Node.js, REST APIs, and database management. Proven ability to build fintech and business applications, optimize application performance, integrate third-party APIs, and deliver production-ready solutions using Agile methodologies. Strong background in full-stack development, mobile application development, cloud deployment, and software engineering best practices.

PROFESSIONAL EXPERIENCE

Software Engineer

OBAPS Global Technologies Private Limited, Tumkuru, Karnataka

| June 2025 – Present

- Developed and maintained scalable full stack web and fintech applications using React.js, Node.js, PHP, MySQL, and Tailwind CSS, contributing to live client projects including secure transaction processing and improving application performance by optimizing RESTful API integrations .
- Collaborated in Agile sprints with cross-functional teams on fintech product development, utilizing Git and GitHub for version control, issue tracking, and continuous deployment of features like payment gateways and user dashboards, ensuring timely delivery and compliance.
- Built and deployed mobile applications using React Native for fintech services, focusing on real-time data fetching, user authentication, secure mobile payments, and cross-platform compatibility to enhance client-facing experiences.

Web Developer Intern

OBAPS Global Technologies Private Limited , Tumkuru, Karnataka

| Feb 2025 – May2025

- Gained real-world experience in full stack and fintech product development by contributing to client-facing web applications with React.js, WordPress, PHP, and MySQL, integrating APIs for financial modules and optimizing database queries for scalability and security .
- Implemented responsive designs and performance enhancements using Tailwind CSS and Agile practices for fintech prototypes, reducing load times and supporting team sprints via Git/GitHub collaboration.

Full Stack Web Developer Intern

Inventeron Technologies

| Oct 2023-Nov 2023

- Developed a real-time **Movies App** using React Native with dynamic API integration.
- Focused on delivering mobile-first design and enhancing user interaction with real-time data fetching.

KEY PROJECTS

RGURU Financial Services Platform

Technologies: React.js, React Native, Node.js, Express.js, MySQL, REST APIs, Tailwind CSS

- Developed and deployed a comprehensive financial services platform featuring an **Admin Dashboard, Customer Portal, and Portfolio Management System**, enabling customer onboarding, portfolio tracking, investment management, and secure financial operations.
- Built, deployed, and maintained **cross-platform Android and iOS mobile applications using React Native**, including API integration, authentication, networking, and real-time data synchronization; successfully published applications to the **Google Play Store** and **Apple App Store**.

FutureScoops E-Commerce Platform

Technologies: React.js, React Native, Node.js, Express.js, MySQL, REST APIs

- Developed a full-scale e-commerce ecosystem consisting of **Admin Panel, Customer Web Application, and Mobile Applications.**
- Designed and implemented product catalog management, order processing, inventory tracking, and customer management modules.
- Built responsive user interfaces and optimized application performance across web and mobile platforms.
- Integrated payment workflows, order management, and customer engagement features.
- Contributed to both frontend and backend development using modern full-stack technologies.

Multimodal Sentiment Analysis on Digital data

Technologies: Streamlit, Python, TensorFlow, OpenCV, NLTK, SpeechRecognition

The Multimodal Sentiment Analysis on Digital Data project is an interactive web application that analyses sentiments and emotions from text, images, audio, and video inputs using advanced machine learning technologies. It provides real-time evaluation and detection through a user-friendly interface, enhancing users' understanding of emotional responses.

Elite Estates || realestate-2uw3.onrender.com

Technologies: MongoDB, Express.js, React, Node.js

EliteEstates is a real estate platform using the MERN stack, offering real-time property listings, advanced search, and user-friendly management tools to simplify your property search and management.

TECHNICAL SKILLS

- Languages** : Java, JavaScript, TypeScript, Dart, php.
- Frontend** : ReactJS, NextJS, HTML, CSS, Bootstrap, Tailwind CSS
- Backend** : Node.js, Express.js, PHP, REST APIs.
- Database** : MySQL, MongoDB.
- Cloud & Devops** : AWS EC2, CI/CD , VPS Deployment
- Mobile Development:** React Native, Flutter
- Tools** : Postman, Insomnia, Render, Git, GitHub, GitHub Actions, Visual Studio, Android Studio, Shopify.

EDUCATION

Bachelor's of Engineering - Computer Science & Engineering	2021-2025
Mangalore Institute of Technology & Engineering, Karnataka	CGPA: 9.25
Senior Secondary	2019-2021
Narayana Pu College, Bengaluru, Karnataka	Percentage: 96.17%

CERTIFICATION & PARTICIPATION

- Certified in the course ‘**HTML, CSS and JavaScript for Web Developers**’ provided by **Coursera.**
- Certified in the course ‘**The Complete Flutter Development with Dart**’ provided by **Udemy.**
- Certified in the course ‘**Data Structures and Algorithm**’ provided by **Udemy.**
- Certified in the course ‘**Amazon Web Service as Beginner**’ provided by **Udemy.**
- Certified in the course ‘**Bootstrap 5** ’provided by **Udemy.**
- Participated in ‘**HACK HEIST**’ organized by **Mangalore Institute of Technology and Engineering.**
